Summary

Front-End Developer with 2 years of experience in creating accessible web applications using HTML, CSS, JavaScript, and React. Strong foundation in front-end principles, responsive design, Git version control, and web performance optimization. Committed to continuous learning and effective collaboration.

Relevant Experience

Speak out Africa for Children- (Volunteer), Feb 2023 - Jun 2023

Team Lead / Frontend web Developer

- Led front-end team, coordinated efforts, and motivated members to achieve project goals, ensuring seamless collaboration
- Collaborated closely with product designer, implementing accurate UI/UX using Bootstrap and replicating Figma design, resulting in visually appealing and user-friendly web experiences.
- Demonstrated proficiency in front-end development by building functional web pages using Bootstrap, effectively translating design concepts into interactive and responsive interfaces.
- Optimized workflow and enhanced code collaboration by utilizing Git for streamlined collaboration, code management, and maintaining version-controlled repository on GitHub.

Pasify Technologies, Jan 2021 - Dec 2022

web Developer

- Mastered HTML, CSS, and JavaScript, developing top-quality code for diverse projects, including a personal portfolio website and numerous fully functional front-end web applications.
- Verified front-end code functionality across browsers and platforms, ensuring seamless user experiences and consistent performance.
- Stayed current with industry techniques, technologies, and trends, adapting to evolving standards for delivering cutting-edge solutions.
- Committed to professional growth by actively participating in continuing education, attending relevant conferences, and engaging in workshops to stay updated on current web technologies and programming practices.

Smile Tech, Oct 2020 - Dec 2020

Junior Front-End Developer

- Developed strong knowledge in HTML, CSS, and JavaScript to convert designs into functional web pages, establishing a solid foundation in front-end development.
- Conducted comprehensive testing to ensure optimal performance and user experience, evaluating the functionality and usability of web pages.
- Actively learned from experienced developers, integrating techniques and best practices to enhance coding proficiency and efficiency.
- Embarked on coding journey, building foundational skills as a programmer.

Certification / Badge

JavaScript Essentials - Level 1 

Issuing body - Cisco Networking Academy and

OpenEDG Javascript Institute.

Date Earned - Sept, 2023.
